

AVES CEYHAN PROJECT

Why Ceyhan ?

- BTC : 50 m MT/year
- Kirkuk – Yumurtalik: 80 m MT/year
- Samsun - Ceyhan Project: 50 m MT/year
- Deep seabed in Gulf of Iskenderun: Up to 150,000-175,000 DWT vessels

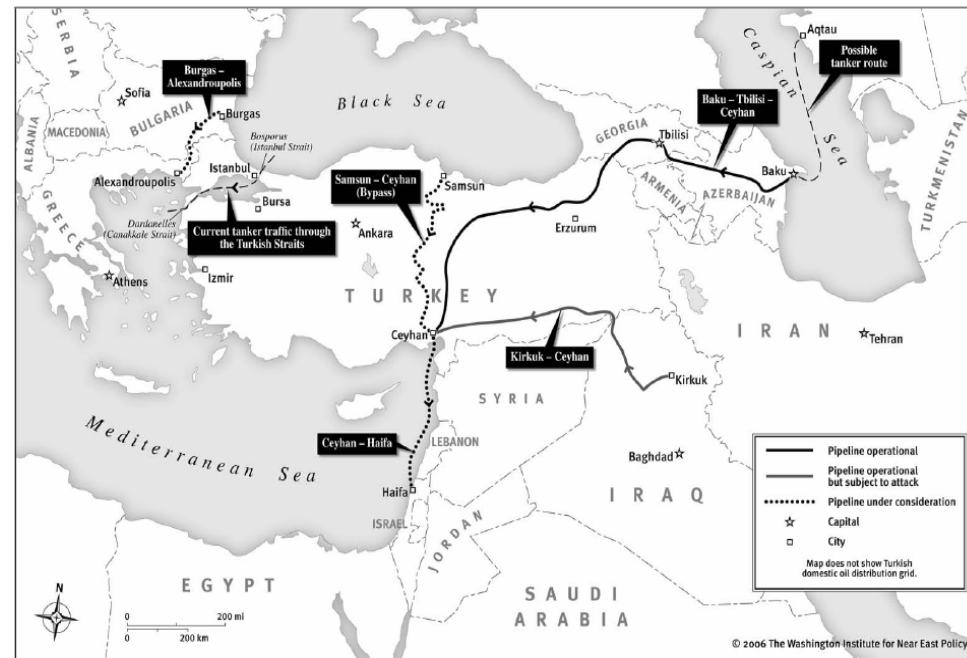

AVES CEYHAN PROJECT

What is Ceyhan Energy Specialized Industrial Zone?

- Under the 9th Development Plan, Ceyhan has been selected to become one of the main hubs in international oil markets
- With respect to this plan, an area of **13,5 km²** has been earmarked
- Various investment incentives will be granted in order to build oil refineries, storage facilities, and petrochemical production complexes within a.m. zone

AVES CEYHAN PROJECT

Aves & Ceyhan

- AVES applied to the state for allocation of a 700,000 m² land plot within the Zone to establish an oil terminal with a capacity of 1,000,000 cbm
